

//

EKOPLAST offers warranty and post-warranty service of moulds intended for processing plastics. Our long experience allows us to solve even the most complex problems regarding correct operation of the mould.

We provide, among other services, the following repairs:

- Renewal of mould cavities;
- Recovery of mould tightness;
- Repair of cooling systems;
- Repair of heating parts (hot-channel systems);
- Replacement of worn mould components;
- Solving problems related to correct operation of mould.

Should you have any problems with your mould, we are at your service.
